Comprehensive detail, including definitions of ratings, performance criteria, and explanations of status, is available on www.ed.sc.gov and www.eoc.sc.gov as well as school and school district websites.

Printed versions are available from school districts upon request.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Richmond Drive Elementary equips students with the skills, character and experiences in order to positively impact the world. The school focused on four goals throughout the year. First, teachers spent time writing common pre- and post-assessments in math in order to better collaborate on their teaching and student learning. Homeroom teachers met frequently to discuss how students made progress. They made constant changes about reteaching and regrouping student to improve achievement. Second, all teachers developed lessons to integrate technology in their instruction. All students had access to an iPad. In kindergarten through third grade, each class had five iPads and fourth and fifth graders each had an iPad to use. All staff members sought better methods to teach students using the available technology. Third, RDES worked to improve communication with parents about expectations for learning. Parent meetings for every grade level were held at the beginning of the year so parents could know what their child needed to know and how grades would be reported each nine weeks. Parents were surveyed throughout the year to determine our effectiveness as a school. Fourth, RDES took the next steps in world language instruction. Every child continued to receive daily instruction in Spanish in an immersion fashion. For the second year, Ms. Su taught a lesson during related arts time on Chinese Language and Culture. The partial immersion Spanish program expanded from kindergarten to first grade. These four classes learned all their math and science completely in Spanish. Richmond Drive is proud of their Science Bowl Team and Battle of the Books Team that competed in district competitions. Students and teachers worked hard to prepare for these contests and are to be commended for their effort.

Richmond Drive focused on the character of students in many ways. Each month, students were recognized in the Terrific Kids program for exemplifying one of the core beliefs of the school. Each child demonstrated one way he or she made a difference in another person’s life. As a result, he or she could sign the Difference Maker Wall and receive a Difference Maker t-shirt. Stories were highlighted each week how students and families made a difference. A photo display was made to show examples of student and faculty volunteerism. Every day children told stories how they made a difference. Students, parents, and faculty members worked this year to understand "What is too much?" and how we can give away when we have too much.

Children enjoyed many positive experiences which made a difference in them as well. Students went on field trips to zoos, farms, and museums. Fourth graders went to Camp Thunderbird. Fifth graders visited the Velodrome and Riverwalk and some learned to ride a bike for the first time. Many grade levels walked to local restaurants and parks to celebrate student achievements. Students traveled to Charlotte, Columbia and Charleston in addition to Brattonsville and the Carroll School. Third graders experienced environmental lessons at Camp Cherokee and fourth graders learned to swim at the Natatorium. All students were provided experiences that gave them a wider perspective and increased their confidence.
